This neighborhood is included in the areas where the "New Uzbekistan" vision is being implemented, and large-scale improvement and infrastructure renovation work has begun here. Internal roads are being paved on the streets of the neighborhood, pedestrian walkways are being repaired, and modern lighting is being installed. Comfortable places for residents to relax, playgrounds, and sports facilities are being built.

Also, renovations are underway at social facilities in the mahalla a school, a preschool, and a family clinic. This will further expand the ability to provide quality education and health services to the population.

- Such work, carried out within the framework of the "New Vision of Uzbekistan" program, serves to improve the living standards of the population in the mahalla, create decent infrastructural conditions for them, and form a modern environment, -
